Follow-up Q&A session

Tuesday, June 25, 2024

12:00 – 1:00 pm ET

AI is being incorporated into acquisition settings into commercial software. Some users tend to click buttons not understanding what that button does. This session will address these topics:

- What is AI for image acquisition?
- What does it do?
- When is appropriate?
- Educating users about AI in image acquisition.
- Is it worth it?
- Further discussion about concerns regarding AI in image acquisition and what we can do about it.
